Brace The Core, Be Agile!

The year 2022 arrived with the promise of 'back to normal' after the pandemic disruptions. The year didn't exactly pan out that way. The 2022 has ended with more disruptive forces shaping our lives - a stark reminder that the future is not the same as the past.

From the CEO's Desk

Wishing you all A Very Prosperous and **Happy New Year!**

During the year 2022 we lived through many challenges -inflation, rising interest rates, fears of recession, supply chain disruptions, high employee attrition, and tech's mega- layoffs , to name a few.

These challenges remain very alive as we enter the year 2023. The IT industry, in particular, continues to battle with the possibility of cuts in IT spending amid the ongoing war for talent.

We, at ProductDossier, have continued to build our core strengths in the ProductDossier Professional Services Automation platform. This year we raised our level of industry outreach and employee engagement. This has helped us in being more quick-footed.

The ProductDossier PSA platform implementations have helped our customers in doing the same by demolishing their data-silos and enhancing collaboration for raising productivity and profitability of their projects.
