

Q2 - 2023 ProductDossier Newsletter

Fasten Your Seatbelts!

The contours of the AI-powered world are getting clearer. You need to decide whether you will use AI to raise productivity or improve your organization's performance. Will you plod along or prepare for leaps and bounds?

From the CEO's Desk

The year 2023 started soon after the wave of generative AI chatbots. The potential of AI-powered applications to raise productivity is more evident as we reach the half-year mark. The transformative potential of AI to boost organizational performance and disrupt business models hasn't received much attention. ProductDossier PSA platform gets you data-ready for AI. It enables faster, more collaborative, and AI-guided decision-making.

We have grown thanks to your continued trust in us and your support. We are happy to share that we now have a bigger Pune office. We look forward to welcoming you!

Like in the past, we have continued our industry outreach bring our thought leadership ideas to you.

Reaching Out to Industry

As thought and innovation leaders in the professional services industry, we have dedicated ourselves to extensive industry outreach programs. Our commitment to staying at the forefront of the field has allowed us to engage with various stakeholders and contribute to shaping the industry's future. Here is a glimpse into our industry outreach.

2nd Edition the Economic Times Future Forward

2nd Edition The Economic Times Future Forward Powered by ProductDossier was scheduled on May 4, 2023, at Taj Lands End, Mumbai and May 5, Virtual.

Expanding Horizons: Inauguration of New Office and Team Growth

We are thrilled to announce the momentous occasion of ProductDossier's new office inauguration, which was marked by a divine Vaastu Pooja. The event not only symbolized our company's growth and success but also reflected our deep-rooted values of spirituality, unity, and gratitude.

The auspicious day commenced with a traditional puja, a sacred ritual performed to seek blessings for the new office space and its occupants. Our team came together with a sense of reverence and anticipation as we gathered in the designated prayer area. The atmosphere was filled with positive energy and a sense of collective excitement.

Welcoming New Clients

Iris Software is a leading service provider of automation, cloud, data & analytics, integrations, and interactive technology solutions to global clients across banking & financial services, insurance, life sciences, professional services, transportation & logistics and manufacturing industries.

Yethi was founded with the objective of helping bring greater quality to the technology systems that support the BFSI industry. With years of experience, Yethi leverages unique methodologies, advanced solutions, and close industry partnerships to deliver innovative solutions to clients. Yethi's flagship product, Tenjin is a highly resilient test automation platform built for complex enterprise applications.

Implementation News

Timesheet & Leave Management Module Integrated with Quest's Mobile App

In a move that promises to revolutionize workforce management, the integration of ProductDossier's robust PSA timesheet and leave management module with Quest's Mobile App marks a significant milestone in streamlining and enhancing employee productivity and resource management.

The integration of ProductDossier's PSA timesheet and leave management module with Quest's Mobile App will undoubtedly elevate the App's value proposition, empowering users to seamlessly manage their time, track project progress, and effectively allocate resources—all within a single, unified platform.

IRIS Software Implementation News

The scope of ProductDossier PSA implementation for Iris Software includes master data management, project management (project set up), financials (cost accrual and revenue recognition), resource allocation, timesheets & leaves, and reports & analytics.

SoftDel Went Live

We have successfully implemented our cutting-edge PSA tool at SoftDel, a renowned technology company. The integration of the PSA tool into the launch of SoftDel represents a tremendous accomplishment, empowering the organization to optimize project management capabilities and streamline its professional services.

The implementation of ProductDossier PSA's robust PSA tool represents a strategic decision by SoftDel to enhance project planning, resource allocation, time tracking, and overall operational efficiency. SoftDel recognizes the importance of adopting innovative technologies to drive productivity and customer satisfaction, and the PSA tool aligns perfectly with the company's objectives.

Data privacy, Security, and Integrity

As a leading software services provider whose software handles transactions worth billions of dollars, ProductDossier considers "System and Organizational Controls (SOC)" as the foundation of dependable financial information and data security.

GDPR is a regulation applicable to the European Union (EU) requiring businesses to protect the personal data and privacy of EU citizens for processing their personal data. We have completely aligned with GDPR norms including data privacy policy, roles & responsibilities for data protection, organizational awareness, processes & controls, and regular assessments.

- SOC1 and SOC2 compliant.
- GDPR Compliant.
- ISO 270001 compliant.
